

MAINE WEST 2022 | 2023 PROFILE

The School and Community

Maine West High School lies 40 minutes northwest of downtown Chicago in a suburban area serving most of Des Plaines and a portion of Rosemont. Maine West educates students who speak 45 languages and 42.6% of students live in homes where English is not the primary language. The student population is 38.9% white, 3.2% Black, 44.4% Latinx, 10.6% Asian, 0.2% American Indian or Alaska Native, 0.2% Pacific Islander and 2.5% who identify as two or more races.

The enrollment is 1,907 and the average class size is 23. Maine West provides a comprehensive, innovative and rigorous public education program.

Curriculum offerings at Maine West are extensive, with over 200 courses offered in 10 departments, including the fine arts, world language and career technical education. Education horizons are broadened via Maine West's distance learning and videoconferencing capabilities, allowing student learning to expand into the larger community. The school provides AP courses and dual-credit courses, as well as a dedicated program to allow students internship and career experiences to help with postsecondary choices.

Grading

District 207 reports a weighted and non-weighted grade point average on the transcript. GPA for all courses is calculated on a four-point scale. Accelerated and AP courses are given one additional bonus point. This is reflected in the weighted GPA.

Driver Education does not count in the GPA. Physical Education counts in the non-weighted GPA. In a Pass/Fail course, a passing grade does not affect a student's GPA. However, a failing grade was figured into a student's total GPA as a zero through the fall semester of 2019. Beginning with the spring semester of 2020, a failing grade is listed as NG and has no GPA impact. An NG may also indicate a course that has been audited or withdrawn from due to extenuating circumstances.

Maine Township District 207 moved to an integrated math curriculum in the 2019-20 school year. In all courses in the integrated math program, students study content standards in the domains of Algebra, Functions, Geometry, Number and Quantities, and Statistics and continue to develop their proficiencies with the 8 Standards for Mathematical Practice. Math 3 Compression and PreCalc Compression courses go at a faster pace, "compressing" more content so that students are prepared for the skills and rigor of Advanced Calculus BC. All grades received in the integrated math program are unweighted.
